NBS Spreadsheet Version 2.1 Updates

On January 1, 2012, updates were made to the NBS Standard Format Version 2.1 Spreadsheet posted on the PA Nutrient Management web site. Updates include:

1. N Availability Factor calculation correction for grazed pastures
2. Revisions to the Contacts for Additional Information.

The current NBS Standard Format version and release date is “NBS Version 2.1 – January 2012”.

For comments and questions regarding the NBS Standard Format Spreadsheet Version 2.1 updates, contact Jennifer Weld.
